PROFESSIONAL SUMMARY

Passionate and detail-oriented Full Stack Developer (MERN Stack | NEXT.js) with hands-on experience in building scalable and high-performance web applications using Next.js, React.js, Node.js, Express.js, and MongoDB. Skilled in modern frontend technologies including HTML, CSS, JavaScript, Redux Toolkit, Tailwind CSS, and Bootstrap. Currently pursuing a Bachelor of Science in Computer Science (BSCS) with a solid foundation in software engineering and full-cycle web development. Demonstrated ability to deliver fully responsive, user-friendly websites through freelance and project-based work. Committed to writing clean, maintainable code and turning client requirements into effective digital solutions.

WORK EXPERIENCE

Full Stack | MERN Stack | Next.js Developer

Freelancer / Independent Projects — 2024 – Present

Began my web development journey in 2024, gaining hands-on experience in building responsive, scalable, and secure web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js) and Next.js. Passionate about creating high-performance digital solutions with clean architecture, modern UI/UX, and robust backend logic.

Key Projects

- Property Listing Platform (Next.js, MongoDB, Tailwind CSS): Real estate app with property listings, advanced search, image uploads, user authentication, and SEO-optimized dynamic pages.
- Agriculture University Management System (MERN Stack): Centralized system for departments (CS, SE, IT, AI, Data Science, Cyber Security) covering notes, course outlines, timetables, exams, and departmental updates.
- Student Fee Management System (MERN Stack): Role-based dashboard for students and admins with secure JWT authentication and dynamic fee tracking.
- Full Stack Blog App (React, Express, MongoDB): Blog platform with user login, protected routes, and CRUD content management.
- E-commerce Website – PakShades.com (MERN Stack): Responsive online store featuring product filtering, cart functionality, and a modern user interface.
- Developer Portfolio Website (React, Tailwind CSS): Personal portfolio showcasing projects, certifications, and technical skills.
- Other Projects (10+): Weather App, Currency Converter, Task Manager, Quiz App, and Admin Dashboard, demonstrating continuous learning and full-stack proficiency.
