PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1+ year of hands-on experience building and deploying 10+ production-grade MERN and Next.js applications — including e-commerce and real estate platforms used by real clients. Designed RESTful APIs handling 500+ concurrent requests with sub-200ms average response time, implemented JWT + OAuth security with zero unauthorized access incidents, and maintained 99.9% uptime over 12 months via CI/CD pipelines on Vercel and Netlify. Strong foundation in TypeScript, performance optimization (35% load-time reduction via code splitting), and modern UI/UX. Currently completing a BSCS degree (GPA 3.37/4.00) and actively seeking mid-level or remote Full Stack opportunities.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit, Framer Motion

Backend: Node.js, Express.js, MongoDB, Mongoose, REST APIs, MySQL (basic)

Tools & Platforms: Git, GitHub, Docker, Postman, Vercel, Netlify, Render, GitHub Actions (CI/CD)

Testing & Security: Jest (basic), Postman API testing, JWT, OAuth 2.0, Role-Based Access Control (RBAC), API Security

Practices: Agile/Scrum, Performance Optimization, SEO, Responsive Design, Code Review, Clean Architecture

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

Jan 2025 – Present

Self-Employed | Remote | Pakistan

- Architected and shipped 10+ full-stack MERN/Next.js applications for clients, reducing average page load time by 35% through code splitting, lazy loading, and image optimization — verified via Google Lighthouse.
- Built responsive, mobile-first interfaces that increased average user session duration by 25% across 3 client projects, measured via Google Analytics.
- Designed and documented RESTful APIs capable of handling 500+ concurrent requests with average response times under 200ms, benchmarked using Postman and server logs.
- Architected JWT + OAuth 2.0 authentication with Role-Based Access Control (RBAC) across 4 production apps — zero unauthorized access incidents recorded over a 12-month production period.
- Deployed 10+ applications on Vercel, Netlify, and Render via GitHub Actions CI/CD pipelines, achieving 99.9% uptime over 12 months with automated rollback on failure.
- Collaborated directly with clients through full project lifecycle — requirements gathering, iterative delivery, and post-launch support — consistently delivering on time and within scope.

KEY PROJECTS

BlackCart — Full-Stack E-Commerce Platform

MERN Stack

[Live Demo](#)

- Built a Shopify/Daraz-inspired platform with product search, cart, wishlist, order tracking, and COD/Stripe payment integration — handling end-to-end purchase flow for real users.
- Implemented JWT + OAuth 2.0 authentication with an admin dashboard covering product management, order fulfillment, and inventory control with RBAC-protected routes.
- Optimized UI with Tailwind CSS and lazy loading, achieving a Lighthouse Performance score of 88+ on production.

Property Pulse — Real Estate Platform

Next.js, MongoDB

[Live Demo](#)

- Developed a server-side-rendered (SSR) real estate listing platform with advanced property filtering, Google OAuth, and map-based search — improved Lighthouse SEO score from 61 to 94.

- Designed MongoDB schema for 50+ property listings with geospatial indexing for location-based queries, reducing average query time by 40%.

University Portal — Agriculture University

React.js

[Live Demo](#)

- Built an academic resource management system for students and faculty — covering notes, timetables, announcements, and resource sharing with role-based access for admins and students.

Browser-Based Photo Editor

Next.js, Cloudinary, Canvas API

[Live Demo](#)

- Built a fully browser-based image editing tool with AI-powered background removal (Cloudinary API), brightness/contrast controls, cropping, and multi-format export (PNG/JPEG/WebP) — zero server-side processing required.

Additional Projects: Blog Platform (MERN + JWT) | Fee Management System (RBAC + JWT) | Weather Dashboard (OpenWeather API) | Task Manager (localStorage + TypeScript) | Furni UI & Café UI (HTML/CSS/JS + Framer Motion)

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2022 – 2026 (Expected)

University of Agriculture, Peshawar | CGPA: 3.37 / 4.00

FSc in Pre-Engineering / Computer Science

2020 – 2022

The City College, Peshawar | 86.1% (947/1100)

CERTIFICATIONS

Meta Front-End Developer Professional Certificate — Coursera / Meta

Next.js Development Certification — Coursera

Prompt Engineering for Developers — Vanderbilt University / Coursera

Advanced Web Development — NAVTTC
